

# Cristian Cismaș

Reghin, Mures, Romania  
cristicismas@pm.me  
<https://cristicismas.github.io>

## About Me

Adaptable developer who owns several **open-source projects** (available at <https://github.com/cristicismas>) and a proven knowledge of **front-end** and **back-end** technologies.

## Skills

I am experienced in **ReactJS**, **NextJS**, **JavaScript**, **NodeJS**. I also have a fair bit of experience using different database technologies (**PostgreSQL**, **MySQL**, **SQLite**, **MongoDB**), and some back-end technologies, such as **Express** and **Django**.

## Experience

February 2021 - Present

**Artus Interactive** - *Full Stack Web Developer*

<https://www.artus.com>

- Worked on different NodeJS scripts to reduce the workload (mine and that of my colleagues).
- Developed and refactored multiple components for some big P&G brands.
- Communicated and worked with people across many different countries and cultures to meet business goals.

October 2020 - February 2021

**CamelWeb** - *Front-end Developer*

<https://camelweb.com>

- Helped transition a huge P&G brand website from Gatsby to NextJS, which improved the performance and maintainability of the project.
- Developed multiple components and layouts for the same P&G brand.

April 2019 - May 2020

**ProFotoVideo** - *Full Stack Web Developer*

<https://www.profotovideo.ro>

- Responsible with the development and maintenance of a Django-powered website, which is querying a PostgreSQL database.
- Implemented lazy-loading and automatic thumbnail creation, resolving performance issues and decreasing user bounce rate.
- Customized Django's CMS to suit the client's needs.
